

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

THE APPLICATION OF THE ALLEN COUNTY)	
WATER DISTRICT, OF ALLEN COUNTY,)	
KENTUCKY, FOR APPROVAL OF CONSTRUC-)	CASE NO. 9304
TION, FINANCING AND INCREASED RATES)	

O R D E R

IT IS ORDERED that Allen County Water District ("Allen County") shall file an original and seven copies of the following information with the Commission with a copy to all parties of record by January 10, 1986. If the information requested or a motion for an extension of time is not filed by the stated date, the Commission may dismiss the case without prejudice.

1. Allen County filed hydraulic analyses for the proposed waterline extensions to be constructed as part of Change Order No. 1 on November 25, 1985. This information, when reviewed in conjunction with the hydraulic analyses for the construction previously approved by the Commission, indicates that the potential exists for the existing waterlines and the proposed waterlines on Ky. 99 (south of Amos and from Millard Downing Road to Oak Forest), Walnut Hill Road and Booker Road to experience low pressure (less than 30 psig). Pressures of this level are in violation of PSC regulation 807 KAR 5:066, Section 6(1). Provide details of

any preventive measures or additional construction that Allen County intends to perform to protect against this type of occurrence. Details should be documented by hydraulic analyses and field measurements.

2. Provide a copy of the approval of the Change Order construction from the Division of Water.

Done at Frankfort, Kentucky, this 16th day of December, 1985.

PUBLIC SERVICE COMMISSION
